Closing the Gym:

- Throw away all bottles and other trash before you leave. Leave the gym in decent shape for the next user.
- Close all the bleachers.
- There is a microfiber dust mop, broom and dustpan in the janitors closet next to the girl's restroom to clean the floor if needed. Do not leave swept up dirt piled in a corner.
- Turn off the three small floor fans if you used them. Do not unplug them - just use the on-off dial on the back of the fan.
- Turn off the large pedestal fan.
- Make sure to put back the players chairs and score table - 12 chairs on each side of the score table, two rows on each side.
- Put away any metal chairs you used from the racks by the girl's restroom.
- Turn off **all** the lights in the gym, the restrooms, the hallway where you enter the gym (the light switch is on the wall by the cafeteria door), the hallway by the girl's restroom and the gym lobby.
- If you used the gym speakers turn them off using the switch on the audio cabinet on the stage.
- Make sure you close and lock the entry door (where the Key FOB reader is) and any other external doors you may have opened. Check the doors twice and make sure you lock them.
